EDUCATION

Information Technology University (ITU), Lahore

Bachelor of Science in Computer Science, CGPA: 3.92/4.00

Aug 2023 – Present

7th Semester

RELEVANT COURSEWORK

Machine Learning, Artificial Intelligence, Analysis of Algorithms, Operating Systems, Database Systems, Distributed Systems, Computer Networks, Information Security

EXPERIENCE

Software Engineering Intern

Jun 2026 – Aug 2026

Powersoft19, Lahore

- Contributing to production software development across full-stack features, code reviews, and agile sprint delivery.
- Collaborating with engineering teams to design, implement, and ship reliable application modules and API integrations.

Computer Vision Intern

Mar 2025 – Jan 2026

AiBee.pk (Hybrid), Lahore

- Fine-tuned YOLOv8 and EfficientDet models for retail analytics, achieving 92% mAP on evaluation sets.
- Optimized TensorRT + Docker inference pipelines, reducing latency by 40% for edge deployment.

Teaching Assistant – Software Engineering

Aug 2025 – Jul 2026

Information Technology University (ITU), Lahore

- Mentored 50+ students in software engineering, Git workflows, and CI/CD practices through labs and code reviews.

Freelance Full-Stack Developer

Jan 2025 – Present

Remote

- Delivered 15+ full-stack applications using React, Node.js, and Flutter; improved API/database performance for multiple client systems.

PROJECTS

Tomoads AdTech Platform | Python FastAPI, Go, Next.js, PostgreSQL, ClickHouse, Redis, Cloudflare R2 2026

- Built and shipped a production ad network stack with advertiser campaign workflows, publisher domain/placement onboarding, and admin controls.
- Implemented secure ad serving and billing flow with signed serve tokens, impression/click tracking, internal debit events, and wallet/ledger payouts.
- Developed reliability and anti-fraud guardrails including domain/path verification integrity, role-based admin permissions, and Redis-backed validation/cache paths.

Klebbix RAG System | Python, FastAPI, PostgreSQL, Qdrant, Azure OpenAI, Next.js, Docker Oct 2025

- Developed a production-ready RAG system with JWT auth, rate limiting, and multi-format document ingestion.
- Implemented hybrid retrieval with reranking and SharePoint sync/versioning, with analytics for response quality and usage tracking.

- Make-It-RAG** | *Python, Flask, Google Gemini, MySQL, React*

Aug 2025
- Built an NL-to-SQL assistant that converts natural language prompts into executable SQL queries with interactive chat UX.
 - Presented the project at the National Artificial Conference (National Physics Centre, Islamabad) in a national competition.

- Distributed Web Scraper & Crawler** | *Python, C++, RabbitMQ, MongoDB*

Jul 2025
- Engineered a distributed scraping system with queue-based workers and fault-tolerant coordination for large-scale crawl workloads.
 - Designed custom worker communication and storage flows for high-throughput parsing and deduplicated data ingestion.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C++, C#, C, Java, Kotlin, SQL, Assembly
Frameworks/Libraries: React, Next.js, Node.js, FastAPI, Flask, Django, Express, TensorFlow, PyTorch, Gradio
AI/ML: RAG Systems, LLM Integration, Azure OpenAI, Google Gemini, Cohere, Prompt Engineering, CNNs
Databases: PostgreSQL, MongoDB, MySQL, Qdrant, Redis, ClickHouse, Firebase, Supabase
Cloud/DevOps: Docker, Kubernetes, AWS, Azure, GCP, Vercel, GitHub Actions, CI/CD, Terraform
Tools: Git, REST APIs, JWT, RabbitMQ, WebSockets, OpenCV, Microservices

CERTIFICATIONS

- Microsoft AI & ML Engineering Professional Certificate** (*Microsoft*)

Jun 2025
- Credential ID: **VOGHSBA4IQ9R** — Focus: Artificial Intelligence, Machine Learning, applied AI engineering workflows.
- IBM Certified Database Administrator – DB2 10.5 DBA for LUW Upgrade from DB2 10.1** (*IBM*)

Jul 2024
- Credential ID: **8SL22GBC3U7Q** — Focus: Database Administration, DBMS operations, enterprise database reliability.
- Advanced AI and Machine Learning Techniques and Capstone** (*Microsoft*)

May 2025
- Credential ID: **4TWXAIB3BNCW** — Focus: Deep Learning, Artificial Neural Networks, capstone-level AI/ML application.

AWARDS & HONORS

- Softec '26** – Runner-Up, App Development Competition

2026
- LoopLab '26** – 1st Position, App Development Competition

2026
- PUCon '25** – 1st Place, Application Development Competition

2025
- FCCU CODEFEST '25** – 1st Place, Web Hackathon

2025
- LoopVerse '25** – 1st Place, Application Development Competition

2025
- Softec '25** – 2nd Place, Application Development Challenge

2025
- National Artificial Conference Invitee** – Make-It-RAG Presentation, National Physics Centre

2025
